*Art. 78, 83, 128,
129
R. 26, 34, 67*

(1) Until completion of the technical preparations for publication of the European patent application, the applicant may inform the European Patent Office that,

(a) until the publication of the mention of the grant of the European patent or, where applicable,

(b) for twenty years from the date of filing, if the application is refused or withdrawn or deemed to be withdrawn,

the availability referred to in Rule 33 shall be effected only by the issue of a sample to an independent expert nominated by the requester.

(2) Any natural person may be nominated as an expert, provided that they comply with the requirements and obligations laid down by the President of the European Patent Office.

The nomination shall be accompanied by a declaration from the expert that they undertake to comply with the aforementioned requirements and obligations and that they know of no circumstances which might give rise to justified doubts as to their independence or which might conflict in any other way with their function as expert.

The nomination shall also be accompanied by a declaration from the expert vis-à-vis the applicant in which they enter into the undertaking given under Rule 33 until either the date on which the patent expires in all the designated States or, where the application is refused, withdrawn or deemed to be withdrawn, the date referred to in paragraph 1(b), the requester being regarded as a third party.

Rule 33⁵⁴**Availability of biological material**

Art. 78, 83, 128,
129
R. 26, 34

(1) Biological material deposited in accordance with Rule 31 shall be available upon request to any person from the date of publication of the European patent application and to any person having the right to inspect the files under Article 128, paragraph 2, prior to that date. Subject to Rule 32, such availability shall be effected by the issue of a sample of the biological material to the person making the request (hereinafter referred to as "the requester").

(2) Said issue shall be made only if the requester has undertaken vis-à-vis the applicant for or proprietor of the patent not to make the biological material or any biological material derived therefrom available to any third party and to use that material for experimental purposes only, until such time as the patent application is refused or withdrawn or deemed to be withdrawn, or before the European patent has expired in all the designated States, unless the applicant for or proprietor of the patent expressly waives such an undertaking.

The undertaking to use the biological material for experimental purposes only shall not apply in so far as the requester is using that material under a compulsory licence. The term "compulsory licence" shall be construed as including ex officio licences and the right to use patented inventions in the public interest.

(3) For the purposes of paragraph 2, derived biological material shall mean any material which still exhibits those characteristics of the deposited material which are essential to carrying out the invention. The undertaking under paragraph 2 shall not impede any deposit of derived biological material necessary for the purpose of patent procedure.

(4) The request referred to in paragraph 1 shall be submitted to the European Patent Office on a form recognised by that Office. The European Patent Office shall certify on the form that a European patent application referring to the deposit of the biological material has been filed, and that the requester or the expert nominated by them under Rule 32 is entitled to the issue of a sample of that material. After grant of the European patent, the request shall also be submitted to the European Patent Office.

(5) The European Patent Office shall transmit a copy of the request, with the certification provided for in paragraph 4, to the depositary institution and to the applicant for or the proprietor of the patent.

(6)⁵⁵ The European Patent Office shall publish in its Official Journal the list of depositary institutions recognised for the purpose of Rules 31, 33 and 34.

⁵⁴ See notice from the EPO of 07.07.2010 (OJ EPO 2010, 498).

⁵⁵ Amended by decision of the Administrative Council CA/D 3/17 of 28.06.2017 (OJ EPO 2017, A55), which entered into force on 01.10.2017.

See notice from the EPO of 10.07.2017 concerning amended Rules 32 and 33 EPC (OJ EPO 2017, A61).

Rule 34⁵⁶*Art. 83, 129***New deposit of biological material**

If biological material deposited in accordance with Rule 31 ceases to be available from the recognised depositary institution, an interruption in availability shall be deemed not to have occurred if a new deposit of that material is made with a recognised depositary institution on the same terms as those laid down in the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure of 28 April 1977, and if a copy of the receipt of the new deposit issued by the depositary institution is forwarded to the European Patent Office within four months of the date of the new deposit, stating the number of the European patent application or of the European patent.

Rule 43⁷⁶

Form and content of claims

*Art. 78, 80, 82, 84
R. 50*

(1) The claims shall define the matter for which protection is sought in terms of the technical features of the invention. Wherever appropriate, claims shall contain:

(a) a statement indicating the designation of the subject-matter of the invention and those technical features which are necessary for the definition of the claimed subject-matter but which, in combination, form part of the prior art;

(b) a characterising portion, beginning with the expression "characterised in that" or "characterised by" and specifying the technical features for which, in combination with the features stated under sub-paragraph (a), protection is sought.

(2) Without prejudice to Article 82, a European patent application may contain more than one independent claim in the same category (product, process, apparatus or use) only if the subject-matter of the application involves one of the following:

(a) a plurality of interrelated products,

(b) different uses of a product or apparatus,

(c) alternative solutions to a particular problem, where it is inappropriate to cover these alternatives by a single claim.

(3) Any claim stating the essential features of an invention may be followed by one or more claims concerning particular embodiments of that invention.

⁷⁶ See decisions of the Enlarged Board of Appeal G 2/03, G 1/04 (Annex I).

(4) Any claim which includes all the features of any other claim (dependent claim) shall contain, if possible at the beginning, a reference to the other claim and then state the additional features. A dependent claim directly referring to another dependent claim shall also be admissible. All dependent claims referring back to a single previous claim, and all dependent claims referring back to several previous claims, shall be grouped together to the extent and in the most appropriate way possible.

(5) The number of claims shall be reasonable with regard to the nature of the invention claimed. The claims shall be numbered consecutively in Arabic numerals.

(6) Except where absolutely necessary, claims shall not rely on references to the description or drawings in specifying the technical features of the invention. In particular, they shall not contain such expressions as "as described in part ... of the description", or "as illustrated in figure ... of the drawings".

(7) Where the European patent application contains drawings including reference signs, the technical features specified in the claims shall preferably be followed by such reference signs relating to these features, placed in parentheses, if the intelligibility of the claim can thereby be increased. These reference signs shall not be construed as limiting the claim.

Rule 44 **Unity of invention**

Art. 78

(1) Where a group of inventions is claimed in a European patent application, the requirement of unity of invention under Article 82 shall be fulfilled only when there is a technical relationship among those inventions involving one or more of the same or corresponding special technical features. The expression "special technical features" shall mean those features which define a contribution which each of the claimed inventions considered as a whole makes over the prior art.

(2) The determination whether a group of inventions is so linked as to form a single general inventive concept shall be made without regard to whether the inventions are claimed in separate claims or as alternatives within a single claim.

Rule 45 **Claims incurring fees**

*Art. 61, 76-78, 84,
90
R. 71, 162*

(1)⁷⁷ Any European patent application comprising more than fifteen claims shall, in respect of the sixteenth and each subsequent claim, incur payment of claims fees as laid down in the Rules relating to Fees.

(2) The claims fees shall be paid within one month of filing the first set of claims. If the claims fees have not been paid in due time, they may still be

Rule 47

Form and content of the abstract

R. 50, 66*

(1) The abstract shall indicate the title of the invention.

(2) The abstract shall contain a concise summary of the disclosure as contained in the description, the claims and any drawings. The summary shall indicate the technical field to which the invention pertains, and shall be drafted in a manner allowing the clear understanding of the technical problem, the gist of the solution of that problem through the invention, and the principal use or uses of the invention. The abstract shall, where applicable, contain the chemical formula which, among those contained in the application, best characterises the invention. It shall not contain statements on the alleged merits or value of the invention or on speculative applications thereof.

(3) The abstract shall preferably not contain more than one hundred and fifty words.

(4) If the European patent application contains drawings, the applicant shall indicate the figure or, exceptionally, the figures of the drawings which should be published with the abstract. The European Patent Office may decide to publish one or more other figures if it considers that they better characterise the invention. Each essential feature mentioned in the abstract and illustrated by a drawing shall be followed by a reference sign placed in parentheses.

(5) The abstract shall be drafted in such a manner as to constitute an efficient instrument for the purpose of searching in the particular technical field. In particular, it shall make it possible to assess whether consultation of the European patent application itself is necessary.

Rule 48

Prohibited matter

*Art. 78, 93
R. 50*

(1) The European patent application shall not contain:

(a) statements or other matter contrary to "ordre public" or morality;

Mere comparisons with the prior art shall not be considered disparaging per se;

(c) any statement or other matter obviously irrelevant or unnecessary under the circumstances.

(2) If the application contains matter prohibited under paragraph 1(a), the European Patent Office may omit such matter from the application as published, indicating the place and number of words or drawings omitted.

(3) If the application contains statements referred to in paragraph 1(b), the European Patent Office may omit them from the application as published, indicating the place and number of words omitted. Upon request, the European Patent Office shall furnish a copy of the passages omitted.

In the case referred to in Article 87, paragraph 5, the first sentence shall apply *mutatis mutandis*.

(2) The declaration of priority shall preferably be made on filing the European patent application. It may still be made within sixteen months from the earliest priority date claimed.

(3) The applicant may correct the declaration of priority within sixteen months from the earliest priority date claimed, or, where the correction would cause a change in the earliest priority date claimed, within sixteen months from the corrected earliest priority date, whichever sixteen-month period expires first, provided that such a correction may be submitted until the expiry of four months from the date of filing accorded to the European patent application.

(4) However, a declaration of priority may not be made or corrected after a request under Article 93, paragraph 1(b), has been filed.

Alternatively, a declaration may be submitted that the European patent application is a complete translation of the previous application. Paragraph 2 shall apply *mutatis mutandis*. If a requested translation of a previous application is not filed in due time, the right of priority for the European patent application or for the European patent with respect to that application shall be lost. The applicant for or proprietor of the European patent shall be informed accordingly.
